

Fluid Transfer's 'Pit Buddy' MKII Coupler Lift Assist Device (Clad)

Part No. FT-020821

Specification

Following on from our current and very successful Pit Buddy MKI (FT-004093) Coupler Lift Assist Device (CLAD), Fluid Transfer International Limited (FTI) have gone on to develop our new Pit Buddy Mk 2 CLAD unit. Incorporating our normal high standards for quality and durability, our new Pit Buddy MK2 CLAD offers the following additional benefits over existing CLAD mechanisms:

- EI1584 compliant when used in conjunction with Cla-Val's Hydrant Pit Couplers
- Compact
- Light Weight
- Easily retrofittable to existing Hydrant Servicer vehicles

The Pit Buddy MKII CLAD comes complete with the standard following features:

- Inbuilt Pit Flag Holder when used in conjunction with Cla-Val's Hydrant Pit Couplers
- Adjustable lower and raise speeds
- Carter 64910 series version also available

Operational Positional Light can be installed onto the CLAD
